

M12 male 0° / M12 male 0° X-cod. shielded

PUR 4x2xAWG26/7 shielded gn UL/CSA 1.5m

Art.No.: 7000-51001-7900150

Weight: 0.095 Country of origin: CZ

Model designation: MSXAL0-XA-08D790_1.5-ZS

Advantages of our connectors:

Our connectors are versatile and specially optimised for industrial environments. All connectors are 100% tested during the manufacturing process to ensure the highest quality and reliability.

The contacts are gold-plated, which ensures optimum conductivity. Thanks to the high degree of protection, the connectors are ideal for demanding industrial environments. They are also vibration-resistant - this is ensured by the union nut with vibration protection.

Our connectors are resistant to oils and cooling lubricants, but resistance to aggressive media should be tested for each specific application. Different cable lengths available on request

If you are missing technical information? Please feel free to use our dictionary to find more technical details.

Product details:

The resistance to aggressive media should be individually tested for your application. Further details on request.

Ethernet CAT6A

Male straight - male straight

M12 - M12, 8-pole

Product fulfills requirements according to UN/ECE R118

X-coded

shielded

Transmission properties with channel transmission up to 50 $\rm m$

Further cable lengths on request.

Plastic housings with good resistance against chemicals and oils.

| Environmental characteristics Climatic | |
| Operating temperature min. | -25 °C |
| Operating temperature max. | 85 °C |
| Additional condition temperature range | depending on cable quality |
| Important installation notes | |
| Note on strain relief | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. |
| Note on bending radius | Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
